16. The '029 patent, entitled "Compositions and Methods for Treating Hair Loss Using Non-Naturally Occurring Prostaglandins," issued to Mitchell Anthony DeLong, John McMillan McIver, and Robert Scott Youngquist on June 17, 2008. A copy of the '029 patent is attached to this complaint as Exhibit B.

17. Duke University, as assignee, owns the entire right, title, and interest in the '029 patent.

18. Allergan is an exclusive field licensee of the '029 patent.

19. The '649 patent, entitled "Non-Acidic Cyclopentane Heptanoic Acid,2-Cycloalkyl Or Arylalkyl Derivatives As Therapeutic Agents," issued to David F. Woodward, Steven W. Andrews, Robert M. Burk, and Michael E. Garst on June 11, 2002. A copy of the '649 patent is attached to this complaint as Exhibit C.

20. Allergan, as assignee, owns the entire right, title, and interest in the '649 patent.

21. Allergan is the holder of an approved New Drug Application ("NDA") No. 22-369 for bimatoprost ophthalmic solution, 0.03%, sold under the Latisse® registered trademark.

22. In conjunction with that NDA, Allergan has listed with the FDA three patents (the “Listed Patents”) that cover the approved formulation of Latisse®. The Listed Patents are the ’404, ’029, and ’649 patents. The FDA has published the Listed Patents in the Approved Drug Products with Therapeutic Equivalence Evaluations, commonly referred to as the “Orange Book.”

23. Latisse® is covered by at least one claim of each of the Listed Patents.

24. On or about March 7, 2011, Plaintiffs received a letter, dated March 3, 2011, signed on behalf of Sandoz by Bernadette Attinger, Director of Regulatory Affairs.

25. The March 3, 2011 letter stated that Sandoz had submitted, and the FDA had received, an Abbreviated New Drug Application (“ANDA”) under section 505(j) of the Federal Food, Drug, and Cosmetic Act (“FDCA”), seeking approval to engage in the commercial manufacture, use, importation, sale or offer for sale of Bimatoprost Topical Solution, 0.03%, a generic version of Allergan’s Latisse® product, prior to expiration of the ’404 and ’029 patents. The ANDA Number for Sandoz’s application is 202719.

26. The March 3, 2011 letter stated that the ’404 and ’029 patents were invalid, unenforceable, and/or would not be infringed by the commercial manufacture, use, importation, sale or offer for sale of Sandoz’s proposed Bimatoprost Topical Solution, 0.03%.

27. Attached to the March 3, 2011 letter was a statement of the factual and legal bases for Sandoz’s certifications under section 505(j)(2)(A)(vii)(IV) that the ’404 and ’029 patents are invalid, unenforceable, or will not be infringed by the manufacture, use, importation, sale or offer for sale of Sandoz’s proposed Bimatoprost Topical Solution, 0.03%.

28. The March 3, 2011 letter did not discuss the '649 patent. Counsel for Allergan has inquired with Sandoz as to the reasons for omitting the '649 patent. As of the date of this complaint, Sandoz has not confirmed the basis for this omission.

29. In filing its ANDA No. 202719, Sandoz has requested the FDA's approval to market a generic version of Allergan's Latisse® product throughout the United States, including in North Carolina.

30. On information and belief, following FDA approval of its ANDA No. 202719, Sandoz will sell the approved generic version of Allergan's Latisse® product throughout the United States, including in North Carolina.

36. On information and belief, Sandoz knew or should have known that its proposed generic Bimatoprost Topical Solution, 0.03% will be especially made or especially adapted for use in an infringement of the '029 patent, and not a staple article or commodity of commerce suitable for substantial non-infringing use, and that its commercial manufacture, use, offer for sale, sale and/or importation of its proposed generic Bimatoprost Topical Solution, 0.03% will actively contribute to the actual infringement of the '029 patent.

By submitting this application, Sandoz has committed an act of infringement of the '649 patent under 35 U.S.C. § 271(e)(2)(A).
