Plaintiffs Celgene Corporation (“Celgene”), Novartis Pharmaceuticals Corporation and Novartis Pharma AG, (together, “Novartis”) (collectively, “Plaintiffs”), by their attorneys, for their Complaint against defendant IntelliPharmaCeutics Corp. (“IPC” or “Defendant”), allege as follows:

Nature of the Action

1. This is an action for patent infringement under the patent laws of the United States, 35 United States Code, arising from Defendant's filing of an amendment to its Abbreviated New Drug Application ("ANDA") with the United States Food and Drug Administration ("FDA") seeking approval to market a generic version of Novartis' patented FOCALIN XR® drug product in a new, 40 mg dosage strength prior to the expiration of Celgene's United States Patent Nos. 5,908,850 (the "850 patent"), 6,355,656 (the "656 patent"), 6,528,530 (the "530 patent"), 5,837,284 (the "1998 '284 patent"), 6,635,284 (the "2003 '284 patent"), and 7,431,944 (the "944 patent"), all of which cover the FOCALIN XR® products or their use (collectively, the "Patents-in-Suit").

The Parties

2. Plaintiff Celgene Corporation is a corporation organized and existing under the laws of the State of Delaware, having a principal place of business at 86 Morris Avenue, Summit, New Jersey 07901.

3. Plaintiff Novartis Pharmaceuticals Corporation is a corporation organized and existing under the laws of the State of Delaware, having a principal place of business at 59 Route 10, East Hanover, New Jersey 07936.

4. Plaintiff Novartis Pharma AG is a corporation organized and existing under the laws of Switzerland, having an office and place of business at Lichtstrasse 35, CH-4056 Basel, Switzerland.

5. Defendant IntelliPharmaCeutics Corp. ("IPC") is a corporation organized and existing under the laws of Canada, having a place of business at 30 Worcester Road East, Etobicoke, Ontario, Canada, M9W 5X2.

6. IPC initially prepared and filed with the FDA, pursuant to 21 U.S.C. § 355(j), ANDA No. 78-992 concerning proposed generic versions of FOCALIN XR® in 5 mg, 10 mg, 15 mg, and 20 mg dosage strengths. Within forty-five (45) days of receiving notice of that ANDA filing, Celgene and Novartis instituted a lawsuit in this Court captioned *Celgene Corporation, Novartis Pharmaceuticals Corporation and Novartis Pharma AG v. IntelliPharmaCeutics Corp.*, Civil Action No. 07-4854 (FLW)(TJB) (D.N.J.) (the “First IPC Lawsuit”). Pursuant to a confidential settlement agreement, the First IPC Lawsuit was resolved and dismissed without prejudice by this Court on March 5, 2010. The First IPC Lawsuit and the resulting settlement concerned only IPC’s proposed 5 mg, 10 mg, 15 mg, and 20 mg products (the only dosage strengths included in IPC’s ANDA at the time) and did not concern IPC’s new 40 mg dosage strength.

7. After the First IPC Lawsuit was resolved, IPC informed Celgene and Novartis, via Paragraph IV notices dated February 8 and 10, 2011, that it had amended its ANDA to include a 30 mg dosage strength of its proposed generic product (“IPC’s 30 mg Product”). IPC’s 30 mg Product is the subject of an action currently pending before this Court captioned *Celgene Corporation, Novartis Pharmaceuticals Corporation and Novartis Pharma AG v. IntelliPharmaCeutics Corp.*, Civil Action No. 11-1736 (ES)(CLW) (D.N.J.) (the “Second IPC Lawsuit”). By way of a Paragraph IV notice dated May 16, 2012, IPC informed Celgene and Novartis that it had amended its ANDA to include a 40 mg dosage strength of its proposed generic product (“IPC’s 40 mg Product”). The present complaint and lawsuit concerns IPC’s 40 mg Product and is filed within forty-five (45) days of Plaintiffs’ receipt of that notice.

8. Upon information and belief, if ANDA No. 78-992 is approved, it is the intention of IPC to commercially manufacture, use, and sell IPC’s 40 mg Product in the United States.

Jurisdiction and Venue

9. This Court has jurisdiction over the subject matter of this action pursuant to 28 U.S.C. §§ 1331 and 1338(a).

10. This Court has personal jurisdiction over IPC because of: i) IPC's continuous and systematic contacts with New Jersey; ii) IPC's consent to litigation before this Court in the First IPC Lawsuit and the Second IPC Lawsuit, both of which specifically concern this same ANDA; iii) IPC's specific contacts with New Jersey relating to the transactions that are the subject matter of this Complaint, in particular, its filing of ANDA No. 78-992. For example, upon information and belief, IPC has collaborated with Par Pharmaceutical, Inc. ("Par"), a New Jersey corporation having a place of business in Woodcliff Lake, New Jersey, to develop, prepare, test products, and submit ANDA No. 78-992. Further, upon information and belief, if ANDA No. 78-992 is approved, Par will, and for the benefit of IPC as its agent, manufacture, distribute, market and sell IPC's 40 mg Product and/or other dosage strengths of FOCALIN XR® in this judicial district; iv) IPC's designation of Par as its agent for service of process at Par's New Jersey place of business pursuant to the requirements set forth in 21 C.F.R. § 314 under which an ANDA applicant must provide notice of its certification to the patent holder; and/or v) Fed. R. Civ. P. § 4(k)(2).

11. Venue is proper in this judicial district pursuant to 28 U.S.C. §§ 1391 and 1400(b).

hereto as Exhibit F. The '944 patent includes claims directed to dosage forms for oral administration of a methylphenidate drug.

18. Celgene is the owner by assignment of all right, title and interest in the Patents-in-Suit. Novartis Pharma AG is the exclusive licensee, in certain fields of use, of the Patents-in-Suit.

19. Novartis Pharmaceuticals Corporation holds an approved New Drug Application for extended release capsules (including a 40 mg dosage strength) of the hydrochloride salt of *d-threo*-methylphenidate, also known as dexmethylphenidate hydrochloride, which it sells as commercial products under the trade name FOCALIN XR®. This commercial product or its use is covered by one or more claims of the Patents-in-Suit.

Acts Giving Rise To This Action

20. Plaintiffs received a letter from IPC dated May 16, 2012 (the "Notification Letter"), notifying them that IPC had amended its ANDA No. 78-992 with the FDA to seek approval to market its proposed generic version of FOCALIN XR® in a new 40 mg dosage strength. The Notification Letter informed Plaintiffs that IPC had submitted a certification to the FDA pursuant to 21 U.S.C. § 355(j)(2)(vii)(IV) ("Paragraph IV Certification") stating that, in IPC's opinion, all claims of the '850 patent, the '656 patent, the '530 patent, the 1998 '284 patent, the 2003 '284 patent, and the '944 patent are invalid, unenforceable, and/or not infringed by IPC's 40 mg Product.

21. IPC seeks approval to engage in the commercial manufacture, use and sale of IPC's 40 mg Product prior to the expiration of the Patents-in-Suit, which are listed in the FDA publication entitled "Approved Drug Products with Therapeutic Equivalence Evaluations," as being applicable to the patented FOCALIN XR® products.

22. Upon information and belief, IPC intends to engage, and will engage, in the commercial manufacture, use or sale of IPC's 40 mg Product promptly upon receiving FDA approval to do so.

23. Upon information and belief, IPC's ANDA No. 78-992 contains information showing that IPC's 40 mg Product (a) is bioequivalent to the patented FOCALIN XR® products, (b) has the same active ingredient as the patented FOCALIN XR® products, (c) has the same route of administration and strength as the patented FOCALIN XR® products, and (d) has the same, or substantially the same, dosage form and proposed labeling, and the same indication and usage, as the patented FOCALIN XR® products.

24. This action has been brought, pursuant to 21 U.S.C. § 355(j)(5)(B)(iii), before the expiration of forty-five (45) days from the date of receipt by Plaintiffs of the Notification Letter.
